ABOUT

I started as a designer. Somewhere along the way I got obsessed with motion — and then AI showed up and changed what I could do alone. I use it to generate code, build 3D assets, synthesise research, and write copy; things that used to need a whole team. Five-plus years in, working on onboarding for a Web3 wallet, fraud research UX for a job platform used by millions, and a consumer camera redesign. The work is varied. The standard isn't.

EXPERIENCE

InfoEdge · Product Designer, UI/UX

Nov 2023 – Present

Job Hai · Blue-collar hiring platform · 1M+ active job seekers

- Led UX research on recruitment fraud in Delhi NCR, mapping 249 blacklisted recruiters and 653 fake listings and identifying Security Guard as the highest-risk segment.
- Synthesised findings into 6 prioritised design recommendations; projected impact modelling indicated a potential 68% reduction in fraudulent listings and a +22 pt platform NPS improvement.
- Designed core hiring workflows including job discovery, trust signals, and fraud reporting for a Hindi-first, low-digital-literacy user base, applying accessibility principles throughout to support inclusive design at scale.
- Architected and maintained a scalable Figma design system with components, variables, tokens, and auto-layout across 4+ product surfaces; collaborated cross-functionally with PMs and engineers across agile sprint cycles.
- Conducted 12+ usability testing sessions via Attention Insight and contextual inquiry, synthesising findings tracked against task success and retention metrics.

CoinDCX · Senior Product Designer

Jun 2022 – Oct 2023

OKTO · Self-custody Web3 DeFi wallet · 1M+ users · iOS & Android

- Owned the onboarding experience for OKTO, the critical first-time user flow for a self-custody DeFi wallet serving over 1 million users across iOS and Android.
- Conducted empathy mapping, journey mapping, card sorting, and heuristic evaluation across 3 critical flows; developed a Figma component library with design tokens for systematic UI consistency.
- Crafted multi-step flows for cross-chain swaps, bridging, and earning, covering edge cases, error states, and latency UI for high-stakes financial decisions.
- Produced Lottie motion assets and visual content for Web3 events Unfold '22 and Unfold '23.

HMLC · Lead Designer, UI/UX & Motion

Aug 2021 – Feb 2022

Harsh Mann Luxury Consultancy · Boutique luxury retail & lifestyle

- Designed responsive, mobile-first interfaces for 3+ retail clients; spearheaded A/B testing and Hotjar heatmap analysis to validate layout decisions, achieving an estimated 18–22% improvement in page conversion rates.
- Produced motion graphics, animations, and video content for digital campaigns.

Canon India · UI/UX Designer

Jan 2021 – Jul 2021

Apprenticeship under Ravi Dhingra Label · Consumer camera redesign

- Conceptually redesigned Canon India's camera shopping experience, simplifying product discovery, comparison, and purchase journeys across 5+ campaign pages.

- Delivered visual explorations showing how the revamped interface would appear post-launch, including high-fidelity mockups and annotated prototypes for developer reference.
