

Parth Anand

Product Designer, UI/UX

parthanand1705@gmail.com · +91 72096 84084 · linkedin.com/in/parthanand21 · parthanand.in · Noida, India

ABOUT

Product designer with 5+ years across fintech, Web3, and consumer platforms, spanning UX research, interaction design, and design systems. Recent work: onboarding design for a 1M+ user DeFi wallet, fraud-prevention UX for a job platform serving 1M+ active seekers, and a consumer camera shopping redesign. Uses AI-directed workflows to accelerate code generation, asset production, and research synthesis.

Core Skills: Product & UI/UX Design · UX Research · Design Systems (Figma) · Interaction Design · Prototyping · Usability Testing

EXPERIENCE

InfoEdge · Creative Designer (Product UI/UX)

Nov 2023 – Present

Job Hai · Blue-collar hiring platform · 1M+ active job seekers

- Built and maintained a Figma design system (components, variables, tokens, auto-layout) across 4+ product surfaces in close cross-functional collaboration with PMs and engineers, scaling design consistency across agile sprint cycles.
- Mapped 249 blacklisted recruiters and 653 fake listings across Delhi NCR to identify Security Guard as the platform's highest-risk fraud segment, surfacing a previously unquantified trust gap for leadership.
- Synthesised fraud research into a phased design roadmap of 6 prioritised recommendations, modeling a projected 68% reduction in fraudulent listings and a +22 pt NPS lift (currently in implementation, not yet shipped).
- Designed core hiring workflows (job discovery, trust signals, fraud reporting) for a Hindi-first, low-digital-literacy user base, applying accessibility principles throughout to improve task success and retention signals.
- Ran 12+ moderated and unmoderated usability sessions via Attention Insight and contextual inquiry, tracking findings against task success and retention metrics to validate design assumptions before rollout.

CoinDCX · Senior Executive Designer (Product Design)

Jun 2022 – Oct 2023

OKTO · Self-custody Web3 DeFi wallet · 1M+ users · iOS & Android

- Owned a core onboarding feature within OKTO's first-time user flow for a self-custody wallet serving 1M+ users across iOS and Android, leading research through to final UI for that surface.
- De-risked 3 critical flows ahead of build (empathy mapping, journey mapping, card sorting, heuristic evaluation), then designed multi-step swap, bridging, and earning flows with explicit coverage of edge cases, error states, and latency UI.
- Built a Figma component library with design tokens for systemic UI consistency, and produced Lottie motion assets and visual content for two major Web3 community events (Unfold '22, Unfold '23).

HMLC · Lead Designer, UI/UX & Motion

Aug 2021 – Feb 2022

Harsh Mann Luxury Consultancy · Boutique luxury retail & lifestyle

- Designed responsive, mobile-first interfaces for 3+ retail clients and validated layout decisions through A/B testing and Hotjar heatmap analysis, improving estimated page conversion rates by 18–22%.
- Strengthened campaign performance by producing motion graphics, animations, and video content for digital marketing initiatives.

Canon India · UI/UX Designer (Apprenticeship)

Jan 2021 – Jul 2021

Apprenticeship under Ravi Dhingra Label · Consumer camera redesign

- Conceptually redesigned Canon India's camera shopping experience, simplifying discovery, comparison, and purchase journeys across 5+ campaign pages, with high-fidelity mockups and annotated prototypes for developer reference.

SKILLS & TOOLS

Design & Research: Wireframing, Information Architecture, motion and visual design, empathy mapping, card sorting, heuristic evaluation, A/B testing, affinity mapping, WCAG accessibility standards

Systems & Frontend: Figma design systems (components, variables, tokens, auto-layout), HTML/CSS/JS, Three.js, WebGL, GSAP, Blender, Vercel deployment

Tools & Web: Framer, Lottie, Adobe Suite, Miro, Hotjar, Amplitude, ProtoPie, Dovetail · Schema.org structured data, SEO-aware UX, rich result optimisation

EDUCATION & RECOGNITION

NIFT, New Delhi — B.Des. in Fashion Communication · 2017–2021 | Jamini Roy Gold Medal — Awarded by the President of India, Smt. Droupadi Murmu · 2016

Professional UX Design, University of Cambridge · 2026; Foundations of UX Design, Google · 2021 (via Coursera)
